**DETAILED ACTION**

***Allowable Subject Matter***

Claims 8-14 are allowed.

The following is an examiner's statement of reasons for allowance: applicant's arguments on p. 6-7, filed on 1-16-09, are deemed persuasive and furthermore, the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 8.

Specifically regarding claim 8, Richardson (20020044717) or Notten et al. (5970187) teaches the state of the art of a molecular system.

But, Richardson or Notten et al. fails to explicitly teach a combination of all the claimed features including at least one organic non-polymeric molecule that changes color when oxidized or reduced by an electric current, as claimed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
